

Fothershield
SAFETYWEAR

TG4859 Protective Jacket

APPLICATIONS:

General personal protection in various industrial applications such as smelting, foundry and casting operations and the like (medium to heavy duty); glass industry (medium to heavy duty); plastic moulding and processing (heavy duty); thermal treatment operations (light duty); and protection against welding splash and splatter generated in welding and allied processes (Class 1, Class 2, A1, A2).

DESCRIPTION: Wool jacket with reinforced arms

FEATURES & BENEFITS:

- Durable, lightweight, flexible and comfortable to wear
- Protects against molten metal splashes
- Protects against welding splatter
- Minimises the possibility of electrical shock by short-term contact with live electrical conductors (up to 100V DC)
- Incorporates antistatic properties
- Sleeves reinforced with a second layer of base fabric for additional protection
- Fire-retardant (FR) Velcro fastening
- Prussian collar, hi-vis yellow bands
- Three Internal pockets
- Stitched in meta-aramid sewing thread

COLOUR: Navy (other colours may be available) with hi-vis yellow

COMPOSITION: Wool blend

AVAILABILITY: Ex stock
