Manufacturers Technical Specification

The manufacturer's Technical Specification for protective clothing was based on EN ISO 11612:2015 "*Protective clothing – Clothing to protect against heat and flame – Minimum performance requirements*" and EN ISO 11611:2015 "*Protective clothing for use in welding and allied processes*". The suitability of this Technical Specification was checked with respect to the Essential Health and Safety Requirements of (EU) Regulation 2016/425, and was found to address the requirements for this end use.

Limitations of Use

- Usage, maintenance and storage as per manufacturer's instructions.
- The following clause of EN 61482-2:2020 was excluded from the manufacturer's Technical Specification:

Clause 5.5.2 Durability of marking

The garment labels failed to meet Clause 5.5.2 "Durability of marking" after becoming partially illegible after rubbing with water and isopropanol (CH₃-CH(OH)-CH₃). The manufacturer has indicated that their labels withstand normal expected use and can withstand more than 30 cycles of industrial washing, and that they remain legible during the expected lifetime of the garment. The end user must decide on the basis of a risk assessment whether the printing on the garment labels is sufficiently durable for their end use.

Observations

- Not Applicable.
